

Genesys Engage™ On-Premises Versions Deprecation

Note: This is not a general product retirement announcement. This focuses specifically on the deprecation of older versions of our supported products.

April 16, 2024

Overview

As of April 22, 2024, Genesys announces [deprecation for several older versions of Engage on-premises products](#). To ensure the delivery of up-to-date technology, Genesys reserves the right to periodically phase out older versions of Engage products and encourage customers to upgrade/migrate to better functionality and the latest versions.

Frequently Asked Questions

Q: Why is Genesys deprecating older versions of Products and Components?

A: Genesys is retiring older software versions to enhance security and streamline efficiency in line with the latest technological advancements. We strongly recommend our customers to upgrade to ensure they benefit from the most secure, efficient, and advanced solutions available.

Q: What are customers' options?

A: Following the End of Support date, Genesys will discontinue providing security updates, upgrades, bug fixes, troubleshooting, or any other support for the affected products. To ensure continued functionality and optimal performance, Genesys strongly advises customers to either upgrade to the latest versions of the retiring products or migrate to Genesys Cloud CX.

Please contact your Account Manager or Genesys Product Support team for more details or assistance.

Genesys Engage On-premises Platform: Operating System Support Update

As we approach the planned end-of-life for Engage on-premises by the end of 2028, we are proactively adjusting our roadmap to align with our customers' evolving CX strategies. To facilitate this transition smoothly, we are providing advance notice regarding our Supported Operating Environment (SOE) plans for operating systems.

In the future, we won't be extending support to newer operating system versions beyond those mentioned below.

- [Red Hat Enterprise Linux v9](#) will serve as the final officially supported version for Engage On-Premises.
- [Windows Server 2022](#) will also mark the ultimate supported version for Engage On-Premises.

We anticipate that many customers will have completed their evolution to Genesys Cloud CX before the end of full support from the OS vendors. For those who have not, support options will be available from the OS vendors.

Note: Please be advised that the support for earlier versions remains consistent with the notifications outlined in the [Supported Operating Environment Guide](#).

Definitions

End of Life Announcement Date

This is a general announcement, announcing the Last Order Date (“LOD”) of commercially available Genesys products, and the corresponding EOM and EOS dates.

From the EOL Announcement date onwards, it will no longer be possible to quote product(s) or Maintenance and Support on the EOL products to new Customers.

Up until LOD it will still be possible to quote add-on Orders for additional Seats (or such other previously Ordered License Unit Type/License Element), or Maintenance and Support renewals for Customers who already have the applicable EOL product(s) installed.

Notwithstanding the foregoing, outstanding quotes issued prior to the EOL Announcement date will be honored until expiration of their validity date.

Last Order Date

The last date on which any additional units of an EOL product can be ordered. From and after the LOD, no new quotes for such units will be issued or accepted.

End of Maintenance Date

From this date, no Releases (e. g. fixes, updates, etc.) will be available for an EOL product.

End of Support Date

From this date, all Genesys Maintenance and Support obligations will be ceased.
