Important Notice

Information in this document, as well as the software described in it, is furnished under license and may be used or copied only in accordance with the terms of such license. The content of this manual is furnished for informational use only, is subject to change without notice, may contain technical inaccuracies or typographical errors, and should not be construed as a commitment by Exigen Properties, Inc. and/or affiliates ("Exigen"). Exigen may make improvements and/or changes in the products and/or the programs described in this document at any time without notice. Exigen is not responsible or liable for any changes made to this document without Exigen's prior written consent. In particular, modifications in or to the data model may have occurred or may occur in a new product release after publication of this documentation. In accordance with Exigen standard support policy, any difficulties caused by a modified data model shall not be considered support issues and shall not be covered by Exigen maintenance and support. For further information, consult your support agreement.

Information published by Exigen on the Internet/World Wide Web may contain references or cross-references to Exigen products, programs and services that are not announced or available in your country. Such references do not imply that Exigen intends to announce such products, programs or services in your country. Consult your local Exigen business contact for information regarding the products, programs and services that may be available to you.

In no event will Exigen or its licensors be liable to any party for any direct, indirect, special or other consequential damages for any use of this product or its accompanying publications, including, without limitation, any lost profits, business interruption, loss of programs or other data on your information handling system or otherwise, even if we are expressly advised of the possibility of such damages. Exigen provides this product and its publications "as is" without warranties or conditions of merchantability or fitness for a particular purpose. Some jurisdictions do not allow disclaimer of express or implied warranties in certain transactions; in that case, this notice may not apply.

Table of Contents

Exigen Workflow 5.6.12 System Requirements

The following topics are included in this document:

- Exigen Workflow Client System Requirements

- Exigen Workflow Web System Requirements

- Exigen Workflow Components Third Party Software Requirements

- Exigen Product Versions Compatible with Exigen Workflow 5.6.12

Exigen Workflow Client System Requirements

Exigen Workflow client requires one of the following operating systems:

- Windows® 2000 desktop software with the latest service pack and critical updates

- Windows XP with the latest service pack and critical updates

Exigen Workflow client requires one of the following server components:

- Windows 2000 server software with the latest service pack and critical updates

- Windows 2003 server software with the latest service pack and critical updates

Exigen Workflow requires one of the following databases:

Exigen Workflow database requirements	
Database	Operating system
SQL Server 2000	Windows 2000 or Windows 2003
Oracle 9.2	Windows 2000, Windows 2003, or Sun 2.8
Oracle 10.1	Windows 2000, Windows 2003, or Sun 2.8
DB2 8.1 SP4	Windows 2000, Windows 2003, or AIX
DB2 7	AS 400

For all of the preceding databases, a corresponding database driver must be installed on the client. If a DB2 7 database is used, IBM Client Access for Windows, version V5R3M0, must be installed on the client.

Exigen Workflow Web System Requirements

Exigen Workflow Web requires one of the following Internet browsers:

- Internet Explorer 5.5 SP2

- Internet Explorer 6.0 SP1

Exigen Workflow Web requires one of the following application servers:

Exigen Workflow Web application server requirements	
Application server	**Operating system and software development kit**
Tomcat 4.1.27	Windows 2000 or Windows 2003, and Sun JDK 1.4.2
Tomcat 5.5.6	Windows 2000 or Windows 2003, and Sun JDK 1.4.2
	For this configuration to work, a compatibility patch must be installed. The compatibility patch can be downloaded from http://jakarta.apache.org/tomcat/.
WebLogic 8.1	Windows 2000 or Windows 2003, and Jrockit JDK 1.4.2
WebSphere 5.1	Windows 2000 or Windows 2003, and IBM JDK 1.4.2
WebSphere 6.0	Windows 2000 or Windows 2003, and IBM JDK 1.4.2

Exigen Workflow Components Third Party Software Requirements

This section lists third party software components that are not included in the Exigen Workflow installation package.

Automatic Queue Server requires the following third party software components:

- MDAC 2.8
- .NET 1.1 with the latest service packs

To set up AS/400 report processing with Report Queue Monitor, ERM Indexer requires IBM Client Access for Windows, version V5R3M0.

Interactive Document Capture requires the following third party software components:

Interactive Document Capture third party software requirements	
Third party software component	**Condition**
Visual Basic® run-time files, VBRun60sp5.exe	Required.
Lotus Notes 6.0.3 client application	Required if documents are imported to Capture Desktop from Lotus Notes.
Lotus Notes Designer 6.0.3	Required if documents are imported to Capture Desktop from Lotus Notes.
Lotus Notes Domino Server 6.0.3	Required if documents are imported to Capture Desktop from Lotus Notes.
Power Point® and NED Image Printer Driver	Required for conversions from .ppt format to .tif or .dms format.
Visio® and NED Image Printer Driver	Required for conversions from .vsd format to .tif or .dms format.
Word 2000 or later and NED Image Printer Driver	Required for conversions from .doc, .rtf, .htm, and .txt format to .tif or .dms format.

Interactive Document Capture third party software requirements	
Third party software component	**Condition**
Excel 2000 or later and NED Image Printer Driver	Required for conversions from .xls format to .tif or .dms format.
Adobe Libraries 6 and NED Image Printer Driver	Required for conversions from .pdf format to .tif or .dms format.

To convert file types not listed in the preceding table, contact Exigen Support Services.

Exigen Product Versions Compatible with Exigen Workflow 5.6.12

The following Exigen products are compatible with Exigen Workflow 5.6.12:

- Exigen Integrator 5.4
- Exigen E-Mail 5.2.1
- Exigen E-Forms 5.1.2
