Genesys Cloud - Premier Edition OEM Release Note

- [What's New](#)
- [Resolved Issues](#)
- [Known Issues](#)

Introduction

This release note applies to the OEM companies who offer a customized version of Premier Edition to their own customers.

- The New in This Release section lists the new features.
- The Corrections and Modifications section for each release lists corrections to issues and limitations that were previously documented as Known Issues.
- The Known Issues and Recommendations section is a cumulative list. It includes information on when individual items were found and, if applicable, corrected.

Note: The numbers in parentheses are for internal use only.

What's New?

This release contains the following new features or functionality:

CSR Tool

- You now have the option to disable **eServices Chat** and **eServices Email**. (AACD-5266)
- When you enable and configure **eServices Chat**, you will see two new configuration fields:
 - **Allowed Origins**—here you will list all whitelisted, or approved, URLs. **Note:** Use a new line for every URL you enter.
 - **Contact Center ID**—this is a read-only field that displays the subscriber's Contact Center ID.(AACD-5266)

Resolved Issues

This release contains no corrections or modifications to the CSR Tool.

Known Issues

- If you create a subscriber account in the CSR Tool using the **Add Enterprise Account** dialog box, wait 10 minutes before enabling the **ACD** check box in the **Configure Account** section and setting the CX Builder features for your account. (AACD-3855)
- The **ACD Page** cannot be customized for OEM implementations. (PR-13839)
