# Product Ideas Lab Quick Guide

May 30, 2018

## **Product Ideas Lab Objective**

- The Ideas platform encourages engagement, builds community and dialogue, and truly incorporates the **voice of the customer** into the conversation and process that drives product development.
- We encourage you to collaborate with your peers by creating new Ideas, voting on Ideas that resonate with you and commenting on existing Ideas!
- Ideas that reach the vote threshold will evaluated by the Genesys Product Management & Engineering teams and next steps will be clearly communicated.
- It is important to note that while not all submitted ideas will be executed upon, community feedback will play a key role in influencing which ideas are.
